DATE ORGANIZED 1889

WHERE ORGANIZED London, England

FOUNDER(S) Emile Berliner

NATURE OF BUSINESS Inventor & Manufacturer

Subsequent names or significant changes resulting from acquisitions, consolidation, sales or bankruptcies:

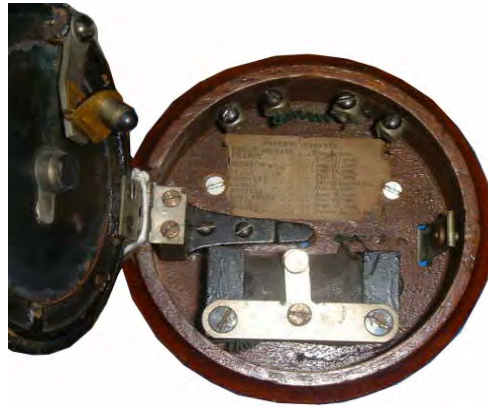

DATE

REMARKS Emile Berliner saw A.G.Bell's telephone at the Philadelphia Exposition in 1876. Berliner notes that Bell's transmitter was faint, noisy and clumsy. Bell Co bought Berliner's improved transmitter patent for \$50,000 along with hiring Berliner. In 1884 Berliner resigned from American Bell Telephone and went on to develop the Gramophone.
