THEY STAND UNEQUALLED AND NEVER FALL DOWN.

Every Sample Brings a Steady Customer.

Chicago, Mich., 2 21 02
 Gentlemen:—We received the desk set O. K., and they are installed and giving us the very best of satisfaction, and I am more than pleased with same.

Please accept my very best thanks for the blue print. You may expect the majority of our future business.

With best personal regards, I remain, Yours truly,
 W. W. LOMBART,
 Mex. Radio Co. Tel. Co.

Square Dealings Makes Friends.

St. William, Oct. 11/23/02

Dear Sir:—In reply to your letter of Nov. 24, addressed to the town of St. William.

The system installed by the International Tel. Mfg. Co. is now working and giving complete satisfaction. In preparation the apparatus is everything that could be desired and the firm very satisfactory to deal with.

Yours truly,
 T. J. GARDNER, Sec'y,
 P. S.—If you require further information we will be pleased to answer any further inquiries.

No exposed metal forms a part of the circuit at any time. All outside parts are of highly nicked brass. Neatly and scientifically designed with every distinct part strongly and durably constructed.

The contacts make sliding connection. The springs are all enclosed. The transmitter lug stop is cerise. The resting spring is long "live" and lasting. No screws depend on threaded rubber. The cords have simple joints to prevent wearing.

We Manufacture Multiple and Trunking Switchboards for Any Size Exchange and a Complete Line of Equipment. We Can Interest You in Price As Well As in Apparatus. Correspondence Solicited.
