**SIX BILLION DOLLARS**  
 were earned last year by the American Farmer—he has changed the United States from a debtor to a creditor nation. During the last five years the value of farms has increased 33 1-3 per cent. To-day he is a loaner of money—instead of a borrower. What has brought about this change in conditions? Modern methods—time and labor-saving devices principally.

**The Williams Farm Telephone**  
 as an instance, puts him in touch profitably, with his dealer, freight-agent, repair man, banker, doctor, without material cost at a saving of much valuable time and labor. If you are interested think it over—and write us for booklet "Over the Wire." The Williams Telephone & Supply Co., 57 Central Ave., Cleveland.

Equip all your Party lines with  
**PUSH BUTTONS**  
 Enabling you to call central without disturbing the other parties.

Our metal case push button can be attached to any telephone without disturbing the present wiring.
